

THE JUNE CASH STORY

A narrative management view from earnings to liquidity

01 | EARNINGS ENGINE

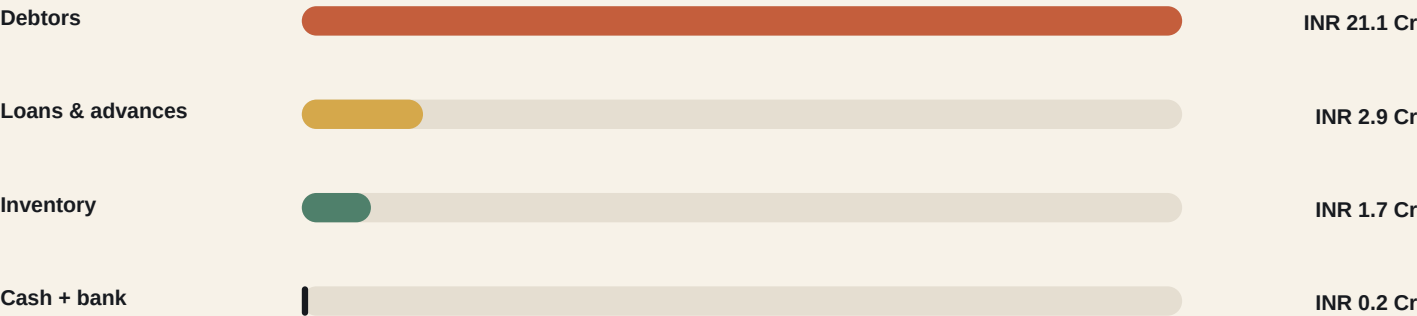

THE CONVERSION GAP

Profit is visible. Cash is not yet following at the same pace.

Cash and bank are 5.3% of June net profit, while debtors stand at INR 21.1 Cr. This points to collection timing and balance-sheet conversion as the central management question.

02 | WHERE LIQUIDITY IS HELD

READ THIS REPORT CORRECTLY

This is an indicative management cash-flow analyzer based on one P&L period and one closing balance sheet. It does not claim an exact cash-flow movement; comparative balance sheets are required for that calculation.

From insight to action

A focused operating sequence for the next reporting cycle

NEXT UPLOAD STANDARD

P&L + opening balance sheet + closing balance sheet

That three-file structure enables an exact indirect-method cash-flow bridge and robust monthly automation.
