DECISION VIEW

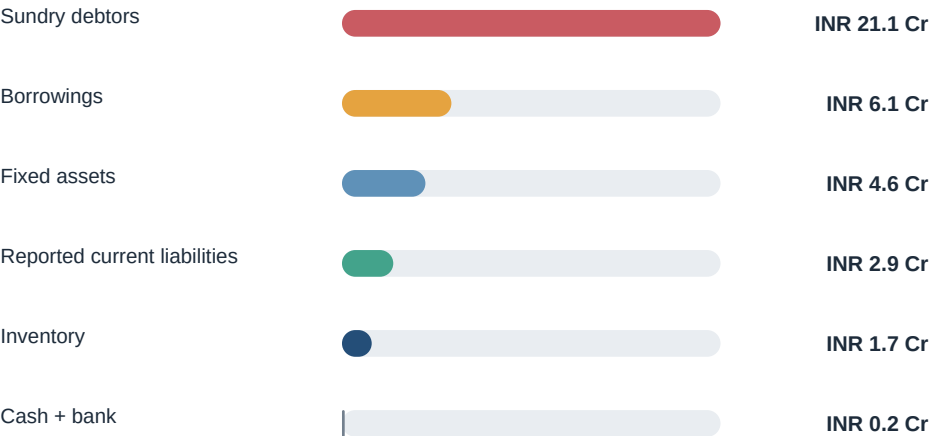

CASH CONVERSION SCOREBOARD

SCORECARD INTERPRETATION

High accounting profit is not yet mirrored in available cash. Collections and cash scheduling deserve priority.

BALANCE-SHEET CONCENTRATION

PRIMARY WATCH

Receivable conversion and overdraft exposure

CFO Scorecard | Decision register

A clean management hand-off: signal, evidence, action, and required next input

SIGNAL	EVIDENCE	MANAGEMENT ACTION	AUTOMATION REQUIREMENT
Cash conversion	Cash + bank INR 15.1 L; net profit INR 2.8 Cr	Weekly collection dashboard; minimum cash buffer; 13-week cash forecast	Opening and closing bank/cash ledgers plus comparative balance sheets
Receivable concentration	Debtors INR 21.1 Cr; 79.5% of current assets	Ageing by customer; collection owner; due-date and promise tracking	Debtor ageing or ledger-level export
Funding pressure	Bank OD INR 4.7 Cr; 31.0x cash and bank	Monitor daily OD, interest, sanctioned limit, and cash sweep opportunities	OD ledger, limits, rate, and daily closing balance
Source reliability	Opening difference INR 10.1 Cr; suspense INR 25.9 L	Reconcile and approve mapping before scheduled report generation	Validation rules plus exception log and approval workflow

MODEL STATUS

Suitable for management visualization; not yet suitable for exact cash-flow computation

Reason: one closing balance sheet is available. Exact cash-flow movement requires comparative balance sheets and reconciled opening balances.
